

EcoSavers®
Outdoor Solar Lights
 ALL YEAR ROUND

The EcoSavers® ALL Year Round Outdoor Solar Lights, combines state-of-the-art solar power with new LED lighting technology.

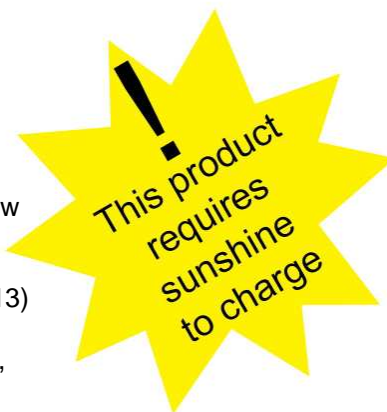

Enjoy the bright light of 50 (type ES-12) or 100 (ES-13) all year round outdoor LED lights with free and clean power provided by the sun. Ideal for Christmas trees, summer parties, parasol lighting, or just to enhance your garden or home.

The Outdoor Solar Lights are waterproof and with the integrated controller you can select 8 different functions such as continuous, flashing, burst, pulse etc.

Furthermore the solar panel is equipped with a daylight sensor. Only when it's dark, are the lights activated to maximise the energy provided by the sun.

The solar panel uses a high grade Kyocera Solar cell which guarantees maximum quality and energy generation.

Experience the benefits of outdoor lights all year round using the power of the sun!

SPECIFICATIONS ES-12

Solar Cell	Kyocera 1 Watt solar module
Batteries	3 pcs. Ni-MH 900 mAh battery
Light cable length	5 metre – 50 LEDs
Number of functions	8
Operating time	Continuous: 5-6 hours Flashing: 10-12 hours

SPECIFICATIONS ES-13

Solar Cell	Kyocera 1 Watt solar module
Batteries	3 pcs. Ni-MH 900 mAh battery
Light cable length	10 metre – 100 LEDs
Number of functions	8
Operating time fully charged	Continuous: 3-4 hours Flashing: 6 - 8 hours
